REGULAR

Baronet Coffee has a large assortment of coffees to satisfy the large variation in consumer tastes. The following is a sample of our most popular coffees. These coffees have proven to work in diverse geographical regions.

Deluxe Blend (House) (Light Roast)

Carefully selected coffees from the world's finest estates have been blended and precisely roasted to create this rich, aromatic and flavorful coffee.

100% Colombian (Medium Roast)

Known as one of the premier coffees worldwide, Baronet chooses only the best quality of all Colombian coffees. Rich, full bodied and mildly acidic. Excellent flavor.

European Roast (Dark Roast)

This dark roast is a blend of Central and South American coffees roasted to reach maximum coffee flavor. A bold and distinctively rich tasting blend for those who want the richest coffee possible without a dark roast bite.

These coffees come in a wide variety of package weights giving you a complete line of specialty coffees to compete against any competitive taste profile.

DECAF

Decaffeinated coffee sales can be as high as 10-15% of your total coffee sales. We recommend the highest quality decaf available.

Decaf 100% Colombian

Only the finest Colombian coffee beans are decaffeinated to produce this smooth full-bodied coffee.

The following coffees represent the most popular specialty coffees in the industry. We recommend you carry the following:

Kenya AA

This fine Kenya has a strong body, rich flavor and wine-like acidity.
